MEMORANDUM FOR: Executive Secretary,
CIA Management Committee

SUBJECT : Inspection Program

There is attached a list of the special studies this Office has been asked to make during the Calendar Year 1973. I request that you present this list to the CIA Management Committee so that it will be aware of the subjects to be surveyed. It is also possible if you raise this list at your meeting, the DCI or the new committee may have other subjects they believe more timely and relevant in view of the present circumstances.

As you will recall the Office is involved in two component surveys, WH Division (the inspection work is completed and the report is being prepared) and the Office of Security (to be finished by June 1973).

Incidentally, one of the items recommended for survey was 'the overall Intelligence Community structure supporting the DCI, to include the staff of the D/DCI/IC, the USIB committee staffs, ONE, and any others.' In view of the current changes underway at this time, I have removed this item from the list.

(Signed) William V. Broe
